

Website check report

External, read-only check

Website checked	https://webguardstudio.com
Client	WebGuard Studio (exemple)
Measured on (UTC)	2026-10-22 14:43
Client authorisation	site de David Serreau (propriétaire)
Measuring tool	sonde_client.py 1.1 · 28 requests

Summary

0 critical · 1 to harden · 0 comfort

No critical issue. 1 point(s) to harden: the site works, but its protection can be strengthened.

Action plan

P2 — fix within the month

- **HTTPS not enforced in the browser (HSTS)** — Add the Strict-Transport-Security header (for example max-age=31536000).

Findings in detail

1. P2 · TO HARDEN · HEADERS — HTTPS not enforced in the browser (HSTS)

Why it matters. The browser can still be steered to the unencrypted version, for example on a rogue public Wi-Fi.

What to do. Add the Strict-Transport-Security header (for example max-age=31536000).

Evidence : en-tête strict-transport-security absent

Measurements

Measurement	Value
Home page response code	200
Response time (s)	0.2
Final address	https://webguardstudio.com
Page size (bytes)	30450
Certificate	expires on : 2027-01-20 · days left : 89 · issuer : Google Trust Services
HTTP to HTTPS	301 https://webguardstudio.com/
Forms found (never submitted)	1
Page title	WebGuard Studio — audit, entretien, sites vitrines et revue de sécurité
Internal links checked	16
Internal links not checked (cap)	0
Domain e-mail	MX : 10 mail.webguardstudio.com. · SPF : v=spf1 mx:webguardstudio.com a:mail.webguardstudio.com a:mailphp.lws-hosting.com -all · DMARC : v=DMARC1; p=quarantine; · DKIM : sélecteur non fourni

Method and limits

Measured from the outside, like a visitor: pages read, certificate examined, public DNS records looked up.
No form submitted, no account login, no penetration testing.

The same checks are replayed on every pass, so before and after a fix can be compared.

This report does not cover: detailed speed and mobile rendering measured in a browser, the cookie banner, whether forms actually work, DKIM without its selector, the site's code and hosting.

No finding does not guarantee no flaw: it means the checks listed here passed.
